## PROFILE

I'm a computer science student with a passion for solving problems and creating innovative solutions. I have a strong foundation in computer science fundamentals, such as algorithms, data structures, and object-oriented programming. I am skilled in programming languages such as Python, HTML, and JavaScript, and I am comfortable working with front-end and back-end technologies. I am confident in my ability to communicate effectively and collaborate with others to achieve a common goal.

## PROFESSIONAL SKILL

- **Proficient** – Javascript , CSS , HTML , Python , MySQL
- **Familiar** – C++ , Git

## RELEVANT COURSEWORK

- Data structure and algorithm
- Artificial Intelligence
- Embedded systems
- Database Management

## EDUCATION

### High School

78% 2019 – 2021

SNBP Rahatni , Pune

Completed high school with a science major, gaining a strong foundation in subjects such as mathematics, chemistry, and physics.

### BTECH – CSE

CGPA – 8.4 2021 – 2025

DY Patil International University, Pune

Pursuing a Bachelor of Technology degree in Computer Science, gaining expertise in programming languages, algorithms, and software development. Seeking to apply this knowledge to solve complex problems and develop innovative solutions.

## PROJECTS

2022

### Tourism website

Developed a dynamic tourism website for my city that showcases local attractions, events, and accommodations, providing visitors with a comprehensive guide to the city's offerings. Designed to enhance the user experience with engaging content and interactive features.

The following project demonstrates my skills in JavaScript, CSS, and HTML.

### Portable alarm system with notification alert

Developed a IOT device for my college design project that sends a notification on your mobile device whenever a presence is detected in the area where the device is installed.

The following project demonstrates my skills and knowledge of C++ and embedded systems.
